20. Orders under the provisions of the State Certificate Act were passed during the year in 2,240 cases with a total value of Rs. 1,23,584, making the demand absolute. With 5,265 cases pending in execution from the previous year, the total number of cases dealt with was 7,505 covering a demand of Rs. 4,98,214. Out of the total demand, Rs. 17,751 was remitted or written off, and of the remainder, Rs. 1,34,329 was actually realised, leaving a balance of Rs. 3,46,134. Of the amount realised, Rs. 1,18,026 represents land revenue and Rs. 16,303 miscellaneous demands. 4 debtors were arrested in the year, of whom 3 were released on promise of payment by instalments and one unconditionally, as there was no chance of recovery of dues.

21. The number of defaulting *taluks* brought under the operation of the Sun-set law (including 16 pending from the previous year) was 101. Of these, 67 were released on payment of dues with penalty, while 4 were sold in auction and 30 remained undisposed of at the close of the year.

22. The results of the survey including re-survey operations are given in the statement below. It will be seen that an area of 3,712 *drones* comprising 1,006 *drones* of *taluk* and 2,706 *drones* of *Khas Mehal* was surveyed, as against a total of 3,509 *drones* in the previous year. The sanctioned programme for survey for the year was 3,584 *drones* in *Khas Mehal* and 2,662 *drones* in *taluks*. The failure to complete the programme was mainly due to the negligence of *Talukdars* to pay in costs promptly, and to the difficulty in recruitment of qualified *Ameens* and other staff for work in unhealthy stations in the interior. The total expenditure incurred in the survey operations in *Khas Mehals* was Rs. 4,873.

25. No permanent or *Taskhichi* settlement or *Niskar* grant was sanctioned during the year.

26. A net increase of Rs. 13,225 in *jama* was secured by re-settlement of *abadi jote* lands, the *nazarana* secured being Rs 26,490. The average rate of *jama* per *kani* was 11 annas 6 pies against 11 annas 7 pies in the previous year.

27. During the year, an area of 679 *drones* of waste land was settled for a prospective rental of Rs. 5,254. The average *jama* per *kani* obtained was 7 annas 9 pies against 8 annas 9 pies in the previous year. The maximum and minimum rates were Rs. 4 and 4 annas respectively. The *nazarana* realised was Rs. 8,751, the rent free period allowed ranging from 1 to 5 years.

28. There were separate Settlement Officers in the Sadar and Kailashabar Divisions. In other Divisions the Divisional Officers were entrusted with the settlement work within their respective jurisdictions. The total expenditure incurred in the settlement operations exclusively, amounted to Rs. 3,239.

29. It will be seen that the *nazarana* obtained and obtainable by re-settlement of cultivable *jote* lands and settlement of waste lands, as *jotes* amounted to Rs. 35,241 (Rs. 26,490 + Rs. 8,751). The net increase of revenue secured was Rs. 18,479 (Rs. 13,225 + Rs. 5,254).

30. As in the previous year a number of old maps were copied for use in the Divisional offices. During the year 41 copies of such maps were traced at a cost of Rs. 71.

31. As detailed below, there were altogether 8 private Estates under State management during the year under report.

83. Jail health was generally good throughout the year. Only one convict died of Chronic Dysentery at the Central Jail.

84. One convict from the Central Jail, 4 under-trials from the Kailashahar Jail and 1 under-trial from the Khowai Jail escaped. The convict and one of the under-trial prisoners of the Kailashahar Jail were re-arrested during the year.

85. The total income from all jails amounted to Rs. 3,350 against Rs. 3,147 of the previous year.

86. The total expenditure amounted to Rs. 13,633 as against Rs. 13,188.

87. The new *pucca* Jail Dormitory was completed and opened by His Highness The Maharaja Manikya Bahadur on the 14th Sravan i. e. 30th July, 1925. It consists of two wards with an accommodation for 38 prisoners.

VI. Registration.

88. After the deputation of Mr. K. Dutt to His Highness's Camp at Shillong in Falgoon of the previous year the charge of the department remained temporarily with Mr. S. C. Deb Barman, M. A., (Harvard) and Babu J. C. Maulik, till Dewan A. C. Chaudhuri took over charge about the middle of the year. During the latter part of the year the charge was again for a short time with Babu B. K. Chatterjee, M. A., B. L., when Dewan A. C. Chaudhuri was on leave.

89. The number of Registration Offices was 9, one at the Head Quarters Station of each of the Divisions or Sub-Divisions. In the mofussil the Officers in charge of the Divisions and Sub-Divisions acted as Ex-officio Registrars, while at Agartala, there was a separate Registrar for the Sadar Division.

90. Appendices XV and XVI are Registration statements and show the work of the Department.

91. The number of documents presented for registration during the year in the 9 offices was 13,265 as against 9,674 of the previous year. Of this number 136 deeds were refused registration on different grounds, while 74 remained pending at the close of the year.

92. The total value covered by the documents presented amounted to Rs. 22,35,371, as compared with Rs. 15,29,558 of the previous year. The total value covered by the documents actually registered was Rs. 21,12,171 as against Rs. 14,96,766 in the year before.

93. The number of suits and appeals filed before the Officer-in-charge, Registration Department, in respect of documents the registration of which had been refused in the Registration offices, was 31 and 3 against 29 and 1 respectively in the preceding year, and there were 24 suits and 1 appeal pending from the previous year, making a total of 55 suits and 4 appeals. Out of these, 29 suits and 4 appeals were disposed of during the year leaving 26 suits pending at the end of the year.

95. The total income from fees and fines amounted to Rs. 15,781 against Rs. 11,213 and the expenditure to Rs. 4,336 against Rs. 3,639. The net income during the year was Rs. 11,444 against Rs. 7,574 which shows a satisfactory increase.

VII. Municipality.

96. The Capital Town of Agartala, continued to be the only Municipality in the State with a population of about eight thousand.

97. On the expiry of the term of the previous Committee a new Committee with 9 members, including an official Chairman and a non-official Vice-Chairman, was formed towards the end of the year. Care was taken to have the different interests properly represented in the Committee. Mr. B. K. Chatterjee, M. A., B. L., Officer-in-charge, Revenue Department, who had experience of the working of Municipalities in a Bengal District, was nominated Chairman of the new Committee and Babu Nagendra Nath Ray, B. L., a local pleader, was elected Vice-Chairman by the unanimous vote of the Committee. There were altogether 12 sittings of the Committee (old and new) during the year, the average of attendance being 4.9. The attendance was unsatisfactory.

98. The income of the Municipality from Municipal and Latrine Taxes was Rs. 3,399 against Rs. 3,943. The demand inclusive of arrears, was Rs. 7,293. It has been found that a large portion of the demand is irrecoverable. The new Committee made an attempt to correct the Tauji by writing off irrecoverable dues. This work should be continued. The income under the Miscellaneous Head including deposits and advances recovered was Rs. 2,053 against Rs. 2,165 in the previous year. The State grant for the year was Rs. 9,000. The total of the above receipts, excluding the income of the Bazar, amounted to Rs. 14,452.

99. The total expenditure of the Municipality including advances and refund of deposits and excluding the amount spent on the Bazar improvement, amounted to Rs. 14,117 against Rs. 14,693 in the previous year.

100. The state of general health within the Municipality was on the whole worse than in the previous year, though Kala-azar cases were decidedly fewer. There were a number of sporadic cases of Cholera and Small-pox, with some fatal ones during the latter part of the year.

101. The want of good drinking water and proper drainage is being keenly felt. The matter is receiving attention.

102. The control of the Town Bazar remained with the Municipal Committee, which took steps to improve the food supply. The work of the Bazar Building was carried on but not finished. The total receipts from the Bazar came up to Rs. 11,026 as against Rs. 4,866 in the previous year. The increase is explained by the fact that arrears to the extent of Rs. 4,948 which was in deposit pending adjustment, was credited to the Municipality during the year. The total demand including an arrear demand of Rs. 5,624-10 was Rs. 11,766-8-6. After necessary expenditure, the Bazar improvement fund stood at Rs. 15,672-5 at the end of the year.

103. For the last 4 years the income from the Town Bazar has been shewn as a part of the Municipal income and treated as the Municipal fund. But the Bazar income is "earmarked" for Bazar improvement, and is not to be treated as a part of the Municipal Fund, nor drawn upon for any other purpose. The income from the Bazar has therefore been shewn separately in the body of this report.

CHAPTER IV—PRODUCTION AND DISTRIBUTION.

I. Weather and Crops—Agriculture.

104. The average rainfall of the year was 108·28 inches against 106·28 in the previous year. The quinquennial average was 90·9 inches. Bilonia Division had the maximum fall of 138·97 inches and Udaipur the minimum of 70·53.

The rainfall, though seasonable on the whole, was untimely in respect of and unfavourable to certain crops.

105. The principal crops were paddy, cotton, *til*, mustard, jute and sugarcane. The weather conditions were favourable to some of these crops and the out-turn was normal in most cases considering the aggregate yield. The out-turn of cotton and *Aman* paddy was unsatisfactory in certain areas.

106. The Tea Industry made some progress during the year under review and the tea produced in the State fetched good prices. As many as 27 gardens showed marked improvement.

107. The health of the cattle was generally bad. There were out-breaks of foot and mouth disease in the Sadar and Khowai Divisions in particular, and the Veterinary Assistant was deputed to the affected localities to render necessary help. On the whole 3,000 heads of cattle were treated for various diseases during the year.

108. The people are mostly agricultural. The main crops, paddy, mustard, jute, potato, *til*, cotton and sugarcane grew fairly well. Cleansed cotton sold at Rs. 15 to Rs. 60 per maund and all agricultural crops fetched good prices. The condition of the agricultural population was thus more or less satisfactory in spite of high prices of imported articles. The middle classes however suffered seriously owing to the prevailing high prices of staple food crops and of imported necessities of life.

109. The prices of food grains were similar to those in the neighbouring British districts. Rice sold from Rs. 5-8 to Rs. 9 and paddy from Rs. 2-12 to Rs. 4 per maund. The maximum price of rice in the previous year also was Rs. 9.

110. There was no appreciable change in the rates of wages. Male labourers earned from 10 annas to Re. 1-8 and female labourers from 4 annas to Re. 1 a day. *Gharamis* earned from 8 annas to Re. 1-4, and Carpenters and Masons from 12 annas to Re. 1-8. Most of the labourers were outsiders from the neighbouring British Districts, as well as up country coolies.

111. No Taccavi advances were issued during the year.

Taccavi.

112. The staff of the Department continued to be the same as it was during the last year.

Staff.

113. The Department undertook during the year, the following propaganda works :—

Propaganda work and
Circuit lectures.

1. Introduction of new cotton crops in the existing *jooms* and also on the plains with plough.

2. The change of the present method of *jooming* by the introduction of single seed sowing system.

3. The giving up of *jooming* where cultivable land is available.

4. Preservation of manure and use of selected seeds.

5. Inducement to grow high land improved paddy *Kataktara* and the low land paddy *Indrasail*.

6. Eri Rearing.

7. Introduction of *Tana* sugarcane and extension of sugarcane cultivation in the *jooms*.

114. It has been found by repeated experiments that the Dharwar American Cotton does not grow well in *jooms* with the variety of seeds tried viz, *Gaduk* No. 1 which gives its proper harvest as late as December, when the *jooms* are totally abandoned, while the early bolls do not open properly and are affected by rains.

Dharwar American Cotton
in *jooms*.

115. The Department is on the look out for a new long stapled American variety which may suitably flower early and allow a steady harvest in the same line with the local Comilla.

116. The Department took up towards the end of the year some improved cotton varieties for experiments in *jooms*, the result of which is to be watched with interest.

Other improved varieties.

117. During the last part of the year the programme for distributing jute, as well as *Kataktara* and *Indrasail* paddy was taken up and there was a vast demand for *Indrasail* paddy which was distributed through local growers.

Seed distribution.

118. Experiments have established beyond a shadow of doubt that almost all the varieties of cotton such as the *Buri*, American Dharwar and the Comillas could be grown on the plains under plough cultivation.

Cotton growing under
plough.

119. Demonstrations were also made with paddy, potato, sugarcane and jute. Seeds were distributed in different other places through local seed growers. The result was fairly satisfactory.

Other Demonstrations.

120. Potato cultivation is spreading in almost every division on river side lands, though the outturn is not quite up to the mark. This is due to the lack of irrigation system. There was less insect trouble with the potato crops during the year under report.

121. The farm land has thoroughly been reclaimed and every necessary arrangement made to utilize it as a seed farm on a small scale for the present.

Kashipur Model Farm.

122. Nainital potato, as well as American and *Matihar* tobacco were tried on a new plot of land. The results were not quite up to the mark as both sowing and planting were late.

Other crops.

123. Eri rearing went on in the farm for seed eggs and demonstration was given in some places near the farm.

Eri culture.

124. The Superintendent was out on tour for 90 days during the year.

Touring of staff.

II. Immigration and Emigration.

125. During the year 1,347 families immigrated into and 760 families emigrated out of the State, as against 1,400 and 694 respectively in the previous year.

III. Forests.

126. Dewan A. C. Chaudhuri, B. A. was in charge of the Department till 3rd Sraban when the direct charge of the Department was taken up by Rai J. C. Sen Bahadur, Vice-President of the Council of Administration. He was assisted by Babu Jatindra Nath Mittra, Forest Officer. All the Forests were under *Khash* management as before.

127. The department had a staff of 3 Forest Inspectors, 19 Foresters, 12 Rangers, 16 Assistant Foresters, 10 Moharers, 16 Head Guards and 197 Guards and Literate Guards. Besides these, there were 184 Commission Agents for the sale of permits for the shoulder-borne export of forest produce. There were 58 stations for collection of duty and prevention of forest offences.

128. The Reserved *Sal* Forests of the Sonamura Division were worked under the system of Coppice with standards and those of the Udaipur Division under the Selection Method, while the open unclassed forests were worked under the State Rules of 1323 T. E. For the Feni River *Mehal*, the working rules of the Bengal Forest Department were followed.

129. As an experimental measure, a fixed block was selected in the Langai Valley and a certain number of trees were marked therein for sale. Similarly two blocks were also selected in the Sonamura and the Udaipur Reserve Forests respectively. As the marking operations were undertaken towards the close of the year, the sale of these blocks could not be held in the year under report.

130. The result of the collection of forest revenue is detailed below :—

159. The noticeable variations in expenditure are explained below :—

i. ADMINISTRATION CHARGES :—

STATE—The main reasons for the increases were :—

(a) Payment of legal expenses to the extent of Rs. 16,000 in connection with the Stamp Forgery Case.

(b) Usual increments allowed under the time scale of pay.

(c) Increased expenditure under travelling expenses and other miscellaneous heads.

(d) Cost of Stamp papers.

(e) Payment of arrear contribution for leave and pension of Rai J. C. Sen Bahadur in excess of the amount previously drawn.

ZEMINDARIES—The increase was mainly due to the usual time scale increments of salaries, increased collection fees paid to the *Gomasias* and the institution of a larger number of rent suits.

ii. REVENUE AND TAXES :—

ZEMINDARIES—The increase was mainly due to revision of the Municipal Tax at Comilla.

iii. PUBLIC WORKS :—

STATE—The outlay under this head shows a decrease of Rs. 56,382 which is not real. Eliminating the heavy adjustment of old advances, the actual expenditure would be Rs. 2,35,615 against Rs. 2,38,002 resulting in a reduction of Rs. 2,387 only.

ZEMINDARIES—The decrease was due to the programme of work undertaken being smaller.

iv. EDUCATION :—

In the State, the increase was due to the educational expenses of two Kumars sent to the Rajkumar College at Raipur ; while in the Zemindaries the contribution granted to some institutions accounted for the increase.

v. MEDICAL :—

STATE—The increase is attributable to the adjustment of old advances to the extent of Rs. 2,780, payment of full salaries of the State Homœopath who had been on sick leave during the preceding year, and larger expenditure on travelling allowances.

vi. SURVEY AND SETTLEMENTS :—

STATE—The cost of preparation of a State map by the Surveyor General of India and the extension of Survey operations mainly accounted for the increased expenditure.

vii. RELIGIOUS EXPENSES :—

STATE—The decrease is only apparent, being mainly due to the adjustment of old advances in the accounts of the preceding year.

viii. SULTANAT :—

The post of the Palace Superintendent remained vacant during the year, and this accounts for the reduction under this head.

ix. PURCHASE OF LANDED TENURES :—

STATE—The increase was due to the purchase of Mr. Courjon's property at Comilla at a cost of Rs. 85,340.

x. PENSION AND GRATUITY :—

The increase was due to the retirement of some officers on pension, and also to payment of gratuities to the families of several deceased employees.

xi. ORDINARY SANNSAR CHARGES :—

STATE—On the whole, the expenditure under this head shows an increase of Rs. 3,367 which was partly due to extra expenditure incurred for Palace guests—the number of visits to the family during the year having been much larger—and partly to the cost of electrical goods purchased on the occasion of marriage ceremonies. The total normal expenditure was however within the budget estimates of the year. The variations under sub-heads (a) and (f) are mainly due to readjustment of certain items of expenditure in the budget.

xii. NIJ TAHABIL :—

In reality there was no decrease under this head ; if the adjustment of old advances be eliminated, the real expenditure would amount to Rs. 1,02,683 against Rs. 98,236 showing an increase of Rs. 4,447 which was mainly due to increased provision made under 'H. H.'s allowance.

xiii. MISCELLANEOUS :—

The payment of a monthly contribution of Rs. 100 to a local Bengalee Magazine and the printing charges of the Rajmala account for the increase.

xiv. MARRIAGE :—

The expenditure was in connection with the cost of two marriage ceremonies in the Raj family.

xv. LIABILITIES :—

As mentioned in the previous report, a sum of Rs. 9,54,361 remained unpaid at the close of the year 1334 T. E. Adding to this figure Rs. 55,472 which represented the current interest charges and did not form part of the ascertained liabilities, the total amount payable came up to Rs. 10,09,833 of which Rs. 5,00,000 was liquidated during the year, leaving a balance of Rs. 5,09,833 at the end of the year.

160. Two separate statements comparing the receipts and expenditure of the State and the Zemindaries with the respective Revised Estimates are given in appendices XXVII and XXVIII.

161. It will be seen that in the State the actual receipts proved better than the forecast by Rs. 1,03,431, while the expenditure fell short of the Revised Estimate by Rs. 63,765. The result of these variations was to raise the anticipated surplus from Rs. 4,48,928 to Rs. 6,16,124.

162. In the Zemindaries, the increase of Rs. 86,748 under the receipts coupled with the reduction of Rs. 17,910 under expenditure resulted in an increase of Rs. 1,04,658 in the closing balance.

CHAPTER VI—MEDICAL.

163. The year under review opened with 18 dispensaries in the State as in the year before.

164. A statement of new patients as treated in all the dispensaries, as well as the daily average of new patients, in comparison with those of the previous year is given below :—

PATIENTS.	1334 T.E.			1335 T.E.		
	Outdoor.	Indoor.	Total.	Outdoor.	Indoor.	Total.
	1,01,248	430	1,01,678	1,05,864	423	1,06,287
Daily average	277.39	1.17	278.56	290.03	1.15	291.18

165. The total outdoor attendance was 1,82,016 as against 1,80,482 in the previous year.

166. With the last year's balance of 12, the total number of indoor patients was 423 as against 430. Of them 279 were discharged cured, 96 were relieved or otherwise discharged, 35 died and 13 remained under treatment at the end of the year.

167. There were 1,086 operations with 16 major cases as against 996 and 15 respectively.

168. The new out-patients treated totalled 12,068 as against 12,504 in the year before—the daily average (new + old) being 59.61 against 61.93. The number of in-patients was 382 against 394 in the preceding year. Of them 242 were cured, 95 were relieved, 34 died and 11 remained under treatment at the close of the year. The daily average was 15.15 against 14.46. The total expenditure on the institution was Rs. 8,769-7-3 against Rs. 8,108-8-9.

169. 165 police cases were admitted during the year under report against 118 in the year before, including 17 post mortem cases against 19.

170. There were two Kavirajes—both being posted at the capital town. They treated 45 patients during the year under report against 40 in the previous year. The total expenditure on account of their salaries and medicines amounted to Rs. 3,646-12-6 against Rs. 4,268-15-6 in the previous year.

171. Dr. Hira Lal Banerjee, H. M. B. with one Assistant was in charge of the Department. 11,405 patients were treated against 10,111 in the preceding year. The daily average (new + old) being 68.31 against 44.65. The total expenditure was Rs. 5,458-15 as against Rs. 3,187-6-9 in the year before, the reason for the large increase being that for 6 months in the previous year, the Doctor was on leave on half pay and without pay.

172. 6,115 persons were successfully vaccinated out of 6,889 operations. One small-pox doctor and one vaccination Inspector inspected the work of the vaccinators in the interior. The total expenses incurred for this purpose came up to Rs. 1,168-12-9 against Rs. 1,095-4-3 in the previous year.

H. E. School. The latter section was open to the public. The number of English books (including foreign literature) was 4,859 against 4,853 in the previous year and the number of Bengali books (including Sanskrit books) was 1,786 against 1,747 in the previous year. In addition to these, there was a moderate collection of valuable manuscripts in the Palace Library. There were 5 Dailies, 1 Quarterly and 5 Monthlies as against 7, 1 and 8 in the previous year. In the year under review the average daily attendance of readers was 13.25 against 13.2 and the total number of volumes issued to the public was 6,575 against 5,309 in the previous year.

203. The total expenditure incurred in the Education Department in the year under report, amounted to Rs 1,08,370 against Rs. 1,00,544. Some of the more important details of the expenditure are noted below :—

1. Primary Education	Rs. 21,470
2. Secondary Education	„ 37,814
